PREPAREDNESS contd.

- A preparatory meeting was called by National Disaster Management Authority (NDMA) on 13.4.11 for conducting mockdrill in Northern India in rainy season on earthquake scenario of 8 in the richter scale.
- The earthquake scenario envisages impact in various UT/States- Delhi, Punjab, Haryana, Himachal Pradesh, Chandigarh, Utrakhand and Jammu and Kashmir.
- It also envisages impact on major infrastructure, like Bhakra Nangal Dam, Roads, Bridges, Highways, Railways etc.
- The mockdrill is likely to be held in about six months after obtaining information /data from respective States/UTs.
- In the meeting the efforts taken by Delhi Disaster Management Authority (DDMA) in last few years was highly appreciated by NDMA.
